No. 7 Sec. 13, 14, 15, east of river, Richardson's reserve E. of river, 21 E. of river, Sec. 23 and 24.

NOTICE.

Is hereby given, that a meeting of the democrats of Wayne Township, Allen County, will be held at the Court House in Port Wayne, on the 1st Monday of April next, for the purpose of appointing delegates to attend the County Convention to be held at the same place, on the 15th day of May next; and also a township committee for the ensuing year. A punctual attendance is respectfully solicited.

By order of the township committee.

PETER KISER, Chairman.

DEMOCRATS.

Remember the Township Meetings next Monday!

We hope every township will appoint delegates to attend the county convention. Let them be such as will be sure to attend, and let them be instructed to vote for such men in the convention as will be acceptable to their respective townships. We are but just entering into the convention system, and it is therefore all important, to secure a unanimous support to its nominees, that the people should be fully and fairly represented in it, and have full confidence that its decisions will be in accordance with the feelings of the majority of the democratic party. We hope every township may be represented, and as far as practicable every delegate instructed to vote in accordance with the feelings of the party of his township. Let all go on fairly and satisfactorily, and then if any professing democrat refuses to support our nominees, or endeavors to create dissensions by raising the cry of a "packed convention," let him hereafter be despised and shunned as a traitor to the cause.

Vigilance committees will also have to be appointed in every township. Will our friends see to this, and send us the names for publication.

We would recommend the county and district committees, to address all the candidates before the convention, and ascertain whether they are willing to abide the result, and will pledge themselves heartily to support the nominee. The claims of no man who refuses to do this ought to be acted on by the convention.

FUN AHEAD!

We understand Judge Kilgore, of Delaware County, is out for Congress, and determined to run any how—convention or no convention. The whigs in this district are in a sad quandary; they are opposed to having a convention, and at the same time have two candidates (in neither of whom they have the slightest confidence) thrusting themselves on them, and resolved to run *no less* rulers.

Which of the two is to be choked off, and how it is to be accomplished, remains to be seen; but one thing is certain—the democrats, if they lay low and keep shy, will see fun. The quarrel between the Indian trader and coachman, and the Delaware chief, will be a rich one, and will most likely terminate like a similar one that once occurred between two cats in the far famed city of Kilkenny.

We should be sorry if our worthy fellow citizen, Mr. Ewing, should have his aspirations rudely or prematurely nipped in the bud—it would be a public calamity. He is a wealthy man, and if allowed to run, would do more good with his wealth, and scatter his cash more generally among the community during the brief term of a congressional campaign, than he otherwise would in the whole term of his existence—even if he should live to the age of Methuselah. Our sympathies are decidedly with him.

FOREIGN NEWS.

Twenty-eight Days Later.—The Hibernia arrived at Boston on the 20th ult., bringing London dates to the 4th. There is no news of much consequence. The distress in Ireland continues unabated; fever and dysentery are abating famine in sweeping off the unhappy inhabitants of that ill-fated country; and without a speedy change for the better, some parts of the country will soon be almost depopulated. The English government has raised a loan of \$10,000,000, to be expended in mitigating the distress.

There has been a slight advance in bread stuffs. Wheat has advanced 8 1/2 cents per bushel, and flour 80c per bbl. Corn is rather on the decline. Wheat \$2.30a\$2.40 per bushel; flour, \$9.35a\$10.05 per bbl.; corn \$1.84a\$2.00.

The receipt of this news caused flour in New York to advance to \$7.50; but in two or three days after, it receded nearly to previous rates. The last quotations are—Flour, \$7a\$7.12; corn, \$5a\$5.90; rye 87. Sales of flour to arrive in May, were made at \$6a\$6.25; corn to arrive, \$5a\$5.82.

THE CANAL.—The repairs on our canal are nearly completed, and water will be let in some

THE MAILS.—We do not believe there is any place in the Union so wretchedly accommodated with mails as Fort Wayne. They are truly like angels visits, few and far between. There is scarcely ever an instance of any important news arriving, that has not been brought by private conveyance, several days before it reaches us by mail; and what is worse, we appear to be left entirely at the mercy of the mail-carriers, who only favor us with a mail when it suits their convenience. We have on previous occasions complained of the detention of the Piqua mail. The Maumee mail is not a whit better managed. This week it was one day behind its time, and that too at a time when its arrival was most anxiously looked for, as the news of the arrival of the last steamer was calculated to have a great effect on the produce market. The negligence of the mail carriers has been a source of great annoyance and disappointment to our citizens, and calls for the infliction of a severe penalty. The matter ought to be brought under the notice of the Post Master General.

Plank Road.

The committee appointed at the meeting held in this city to take into consideration the expediency of making a plank road leading from Fort Wayne to the northern counties, have made an examination of the proposed route and will make a report in time for publication in our next. We understand this examination has satisfied them that it is, if not impracticable, at least inexpedient to adopt the central route between the present Lima and Goshen Roads. The face of the country is such that it would cost almost as much to make the central road as it would both the others, & of course two roads would accommodate a larger scope of country than one could.

The advantage of having good roads from here to the northern counties—the absolute necessity of them, in fact, if we wish to secure the trade which naturally seeks to made this its centre, has been so often dwelt on by us, and are so well understood by all business men in the place, that it may be sufficient at present to urge all who feel interested in the prosperity of our city to make a vigorous effort, and at once attempt their construction. We have talked and resolved long enough on the subject. The time has now arrived to act.

We must now decide whether Fort Wayne shall have the roads, and become, what nature intended her—one of the first business towns in the State—or whether we shall jog along as we have done, without affording facilities for the surrounding country to pour its wealth into our lap—Whether we will sit quietly by and see our trade diverted into other channels, and Fort Wayne sink down into an insignificant third or fourth rate country village; or whether we will exercise a little energy, secure the boon now within our reach, and place our city at the head of business points in the State. On the decision depends the prosperity—the fate—of our promising city.

Grant County Democrat.

We regret to see by an editorial notice in the last number, that the publication of this sterling democratic paper has been suspended. We trust the term of its suspension may be short, and that it will soon again be in the field. It was an able and spirited paper, and its services will be needed in the approaching contest.

New Post Office.

By the new Post Office law, no papers (except by regular subscribers) nor circulars, bills, &c., will be forwarded in the mails, except the postage is paid in advance. For the benefit of those who occasionally mail papers to their friends, we copy the following from the regulations just issued by the post master general:

Transient newspapers, or those not sent from the office of publication to subscribers, handbills or circulars, letters printed or lithographed, not exceeding one sheet in size, will pay 3 cents, upon delivery at the office, and before they are put in the mails, and all such will be charged by deputy postmasters as prepaid matter in the way bills, and upon their accounts of mails sent, and stamped or marked "paid," with the name of the office from which sent.

Letters, papers, &c., will be forwarded to soldiers in Mexico, or on the frontiers, free.

The 11th section of the regulations alluded to, provides that—

Letters, newspapers, and packages not exceeding one ounce in weight, addressed to any officer, musician, or private in the army of the United States in Mexico, or at any post or place on the frontier of the United States in Mexico, will pass free in the mails. Each letter so addressed should specify after the name of the person, "belonging to the army."

FROM MEXICO.

The news from Mexico this week, is so contradictory, that it is difficult to arrive at any conclusion or form an idea how matters really stand. The account of the great battle which we published in our last, is not confirmed, though there can be not doubt that a battle has been fought between Santa Anna and the Americans under Gen. Taylor. It is rumored that dispatches have reached Washington, giving an account of the battle. The latest and most reliable accounts, state that General Taylor had made good his retreat to Monterrey. An attack was being expected there. He lost six pieces of artillery in the Kinconado pass.

He could no doubt hold out at Monterrey as long as supplies lasted, but all communication with him was cut off.

He had made a requisition on Texas, Louisiana, Mississippi and Alabama for ten regiments, to be sent forthwith to the Rio Grande.

FROM SANTA FE.

Continuation of the Report of the Assassination of Governor Bent and the Americans at Taos.

Yesterday we received by the steamer Robert Fulton, Capt. Collier, St. Louis papers of the 11th, one day later than previous dates. The Republican of that date, says that Lt. Albert, whose letter was published a few days ago, and Mr. Hoffman of Baltimore, arrived at Santa Fe, where news of the murder had previously been received, they were satisfied of its correctness. The signal for the bloody work was given about daylight and forthwith in different parts of the village, fell upon their victims, all unprepared for defence, and dispatched them to the "other side," of what may be termed the Mexican side, was defended

Governor of Louisiana, Texas and Mississippi, to raise their quotas of the requisition, and forward them forthwith. This, of course, will not be complied with; but the government are preparing to send out additional forces to the Rio Grande without delay.

Da. Jarvis of the United States Army.

bearer of despatches from Col. Curtis, in command at Camargo, to Washington, arrived at New Orleans on the 14th inst. There had been nothing received from Gen. Taylor for several days previous. The rumors that prevailed were of the most contradictory character, and were brought by Mexicans. The latest reliable intelligence before he left Camargo was, that he expressed his intention of leaving the 23d inst. and stated that Santa Anna had twenty thousand men within a short distance of Gen. Taylor, on the other side of Saltillo, and that he threatened to cut Taylor to pieces unless he surrendered. Old "Rough" declared that he should not surrender and told Santa Anna to "come and take him." The express which left Santa Anna's camp on the 22d inst. says that Taylor had opened upon the Mexicans and was giving them the "Devil," to use his own words. Six Companies of the Virginia regiment arrived at Camargo the day Dr. Jarvis left that place.

The Piquette Extra of the 15th inst., has accounts from Brazos down to the 7th inst. Nothing had been received from Monterrey later than the evening of the 23d inst. The 2d Mississippi regiment arrived at Matamoros on the morning of the 5th inst., to relieve the first (Col. Drake's) regiment, who left Matamoros on the 5th inst., to reinforce Col. Curtis, at Camargo. On their arrival at that place they would then be over two thousand strong. It was the intention of Col. Curtis to remain at Camargo. A Mexican spy was seen near Matamoros on the 3d inst.

Gen. Worth with ten companies of his command arrived at Tampico on the 28th ult. A letter dated at Tampico on the 2d inst., says that news had reached that place that Gen. Minion, leading the advance of Santa Anna's forces, had attempted to surprise Gen. Taylor in the night and had been defeated with great loss. All communication being cut off between Camargo and Monterey since the evening of the 23d ult. is conjecture in relation to Gen. Taylor and his troops.

The troops under Gen. Scott were concentrating with all possible dispatch at Lobos, preparatory to an attack on Vera Cruz.

A gentleman who left Matamoros on the 7th inst. for the N. O. Bulletin, has stated that a letter had been received from an officer at Camargo, dated on the 4th inst., from which it was certain that Col. Morgan's command had been captured—that Urrea was between the pass of Ricomada and Monterey with six thousand men, cutting off all communication between Gen. Taylor and Monterey. The letter also stated that there had been a battle without result, though the Mexicans were victorious.

The N. O. Bulletin says:

"A requisition has been made by Gen. Taylor on the States of Texas, Louisiana, Mississippi and Alabama, for ten regiments, to proceed forthwith to the Rio Grande. The quota of Louisiana is two regiments of Infantry, and we are informed the Governor will issue the necessary orders to-day."

A letter from Col. Curtis, dated at Camargo March 2d, is published in the Piquette of the 5th, which says that he has sent a message "making a requisition on the President for fifty thousand six-month volunteers."

FROM MONTERREY.—We have seen and heard read several letters from our friends in Monterey, dated 15th, 17th and 23d Feb., some of them from officers likely to be well informed in regard to the movements of Santa Anna, &c. They all concur in stating that the Mexicans were in motion, and that an attack was anticipated; but that, in any event, the citadel, where the troops were encamped, could and would be defended against any force sent against it. The magazines were being made bomb proof, and every precaution used to prevent surprise.

Col. Ormsby of the 1st Kentucky Regiment, (Louisville Dragoons), was in command at Monterey, and Wm. Riddle Adjutant. The Paymaster had removed his men from the city into the citadel. All this was rendered necessary from the fact that the Mexicans were supposed to have their spies continually in the city and about the camp. One of these letters stated that Carabaja and Canales had been in the city, a few days before the date, as common woodmen, and had been pointed out by one who knew them.—Louisville Dem.

"We copy the following from the N. O. Atlas of the 17th:

"The resolution which passed the Senate in relation to the call of Col. Curtis for ten regiments of volunteers was, yesterday, laid upon the table in the House of Representatives."

We understand that this disposition was made by the House, in consequence of the fact that Johnson and General Brooke, the chief of this military division. The information from the scenes of operations was considered too vague to justify the raising of the troops, particularly as five of the new regiments are on their way to the mouth of the river, or already there, and the information would be conveyed to Gen. Scott, and every reinforcement be furnished by him, to the aid of the army raised and transported to the field of operations from this city.

LATEST FROM MEXICO.

The steamer Palmetto has arrived at New Orleans, bringing one day's later news from the Brazos.

Previous accounts of the great battle are confirmed, but nothing authentic has been received as to the loss on either side.

The Brazos was under martial law, and all the American citizens enrolled and armed.

An express from the mouth of the Rio Grande informed that the Brazos was in the hands of the Mexicans, and that they had no arms, not even a musket. Arms and ammunition were sent to them.

A large body of the enemy was about Matamoros, and an attack was hourly expected there. Taylor had made good his retreat to Monterrey. An attack was being expected there. He lost six pieces of artillery in the Kinconado pass.

He could no doubt hold out at Monterrey as long as supplies lasted, but all communication with him was cut off.

He had made a requisition on Texas, Louisiana, Mississippi and Alabama for ten regiments, to be sent forthwith to the Rio Grande.

Opening of Lake and Canal Navigation.

The Buffalo Express of Monday, states that the ice in the Lake has accumulated rather than decreased in that quarter during the past few weeks, and that there are no indications to justify the hope of an early opening of navigation this Spring. The Express says: We regret that the Central Railroad Company has wisely concluded not to let the water into the Erie Canal until the frost is all out of the earth, and its banks thoroughly settled. This may delay the opening of the canal, but it will facilitate the business.

at last they undermined it—the inmates at tempted to escape by jumping from the top and in their defence and flight—seven out of eight persons were killed. The man who escaped, named John Smith, at the proper time he started for his home, some miles distant. When he reached there, he sent an express to Bent's Fort, informing them of the state of affairs at Taos. An effort was making by Win Bent, to raise a force to go against the insurgents, but it was somewhat doubtful whether it would be successful.—Cin. Eng.

PLANK ROADS.—In another column we

gave the proceedings of a meeting in Fort Wayne held for the purpose of taking into consideration the subject of constructing Plank Roads, leading from Fort Wayne into various sections of the State.

We are heartily glad that this subject has been brought up, and are sincerely hoping that it will not prove a futile one. These roads are much needed—they can easily be constructed—they will be a benefit to every class in community—they will be the means of settling and improving the country—they will enhance the price of land—they will furnish the farmer that which he most needs, a cash market for his produce—they will aid the mechanic, because it will bring money into the country—it will benefit the land-lord, because it will induce travel—it will benefit the youth, because it will settle the country, and thus multiply common schools—and will prove a great saving of horse flesh in the bargain.

The citizens of this County, Noble, Steuben, &c., &c., are all in favor of the holding of the matter and act in concert with the citizens of the State. Charters were granted by the last Legislature—so that nothing is wanted but to go ahead. Will the citizens take hold of the matter? Will they wake up to their interests? Will they take up what is to benefit the State, themselves and their posterity? We shall see. Action on words—will tell the story.—Lagrange County Democrat

PLANK ROAD.—The citizens of Fort Wayne

have once more resolved to construct a Plank Road from the city to Lake Erie. Fort Wayne, or ought to be lighted with gas. Regularly once a year they set up a road fever, and resolve to construct a road in the direction of dry ground, and like hardened sinners we presume will still

"Resolve, and re-resolve,—then die the same!"

Resolutions cost nothing, and their influence on the roads is slight.

A good road in Fort Wayne would pour the wealth of a half dozen counties into her lap; but she doesn't know it, and has not energy enough to construct it. We hope to provoke her to good works.—Goshen Democrat.

DAILY MAIL.—We take pleasure in announcing

to our readers that through the efficiency of the Hon. WM. SAWYER, our representative in Congress, we are to have a daily mail by the line of Packets from Piqua to Toledo during the season of navigation. This arrangement will afford ample communication from the Lake to the Ohio river during the season of business. Our neighbors, Mr. E. Wayne and the Wash Valley, are awake to their interests in this matter, and are exerting themselves to have a daily line from the Junction to Lafayette, making the channel of communication between the Wash Valley, Toledo, and Cincinnati complete. When this is done, the cross mails will be so arranged and centered on the great arteries, as to insure the speedy delivery of the mail to the cities of Northern Ohio, Indiana and Michigan; many of the present routes are so disconnected, and the country much better accommodated at present. We are also informed by Col. Sawyer, that several new mail routes and post-offices have been established in this district during the last session of Congress.—This we rejoice to hear as more mail facilities will be afforded to the people of this district, and in Congress has labored more for the benefit of his constituents than Col. Sawyer.—St. Mary's Sentinel.

DAILY MAIL.—There is an effort being

made along the line of the Wash and Erie Canal, to effect the establishment of a daily line of mails along the same. It is an effort every one that such an arrangement would be very beneficial to the people living on this route, as well as to those residing on routes which begin or end at offices at different points on the same. Under the present arrangement, nothing is more common than the hearing of important intelligence a day and a half or two days in advance of the mail. To men engaged in mercantile pursuits, or day's delay in the transmission of letters or business, is extremely prejudicial, and when boats are running on the canal, experience has shown that communication can be made by private conveyance with much greater dispatch, than by trusting to the mail; so much so, that the former mode is resorted to by business men all along the route, almost to the exclusion of the latter. We believe if the matter were taken up by the Post Office Department in its true light, the change may be effected. It would, undoubtedly, as a matter of economy, be an advisable change; and when considered in the light of the benefit it would confer on the inhabitants of the Maumee and the Wash valleys, it would be productive of untold advantages. Let all who feel an interest in the bringing about of the project, call at the Post Office in this place, where may be found a petition to the department, setting forth the advantages of, and asking the Post Master General to make this change, together with others of equal utility.—Upper Wash Argus.

Mr. Tigar:—I see the NOBODY FAMILY rode out last week in the coach of scurrillity—their proper carriage. I am glad to see they are able to get out—and, although they come dashing at me like wounded vultures, I hope they will recover from the wounds and pains which seem to trouble them now, so as to be able to drive on and do their usual dirty work. They must live at something, and they might as well follow their "old trade"—they would starve at any other business. I hope they will keep their appropriate signatures, "NOBODY," and never give their real names, so that the public may know they ever profess to be Democrats. I should like to see the little FAMILY of Nobodies go over at once to the Whigs, and thus rid our own party of all the nuisances it ever had.

PAUGHKEPSE, N. Y., Sept. 18, 1845.

Dr. W. W. F. Dear Sir: The character of your Balm of Wild Cherry is so well established throughout the country, and especially in this State, that any further testimony would seem almost unnecessary—yet I am happy to much benefit my neighbor, that I am happy to commend it, through you, to the sick and afflicted, what it has done for me, and I consider it a privilege and duty to do so. I have been troubled with weak lungs for four years, with cough more or less every winter. I was confined to my room all last winter with a severe cold, pains in my breast and side, and several times had spasms of bleeding at the lungs. I consulted a physician, but have never taken any medicine that has done me so much good as Wistar's Balsam of Wild Cherry. I consider it the best medicine in the world for coughs, colds, and pulmonary complaints.

Respectfully yours,

WILLIAM B. SWARTZ.

Cases are daily occurring in every part of the country which prove incontrovertibly the restorative of this Balsam, in every stage of lung and New England, over every other preparation heretofore known to the world. DEMOCRATS.

Remember the Township Meetings next Monday! We hope every township will appoint delegates to attend the county convention. Let them be such as will be sure to attend, and let them be instructed to vote for such men in the convention as will be acceptable to their respective townships. We are not just entering into the convention system, and it is therefore all important, to secure a unanimous support to its nominees, that the people should be fully and fairly represented in it, and have full confidence that its decisions will be in accordance with the feelings of the majority of the democratic party. We hope every township will be represented, and as far as practicable every delegate instructed to vote in accordance with the feelings of the party of his township. Let all go on fairly and unselfishly, and then if any professing democratic reformer to support our nominees, or endeavor to create dissensions by raising the cry of "a packed convention," let him be treated as he deserves and shunned as a traitor to the cause.

GUANT QUARTER DEMOCRAT.

We regret to see by an editorial notice in the last number, that the publication of this sterling democratic paper has been suspended. We trust the terms of its suspension may be short, and that it will soon again be in the light. It was an able and spirited paper, and its services will be needed on the approaching campaign.

NEW POST OFFICE LAW.

By the new Post Office law, no papers (except regular publications) are to be carried by mail, except the postage is paid in advance. For the benefit of those who occasionally mail papers to their friends, we copy the following from the regulations which is now by the post master general:

LETTERS, PAPERS, &c.

Letters, newspapers, and packages not exceeding one ounce in weight, addressed to any office, individual, or private in the army of the United States in Mexico, or at any post or place on the frontier of the United States in Mexico, will pass free of the United States. Each letter so addressed should specify after the name of the person, "belonging to the army."

FROM MEXICO.

The news from Mexico this week, has confirmed our previous reports. It is difficult to arrive at any conclusion or form an idea how matters really stand. The account of the great battle which we published in our last, is not confirmed, though there can be no doubt that a battle has been fought between Santa Anna and the Americans under Gen. Taylor. It is rumored that dispatches have reached Washington, giving an account of the battle. The latest and most reliable accounts, state that General Taylor had made good his retreat, after being six weeks of artillery, to Monterey, where it was thought he could maintain himself until reinforced. The Mexican forces are very numerous, and a part of them having got in Taylor's rear, between Monterey and Camargo, all communication is cut off, and this fact may be attributed to the uncertainty which prevails. Avoid all the rumors and reports with which the columns of the N. Orleans papers are deluged, all that is certain is, that the two armies have come in contact; that the whole line of operations from the mouth of the Brazos to Saltillo, is swarming with Mexicans, and that Gen. Taylor has not force sufficient to successfully to make head against them. The Mexicans will re-occupy all our line of operations. Copies extra will be found below.
